¹ Source: ECB Currency information system report of December 2022. Only positive net issuance is taken into account.

² The number of coin-processing machines to be checked annually in each Member States shall be such that the volume of euro coins processed by those machines during that year represents at least 25 % of the total cumulated volume of coin issued by that Member States from the introduction of euro coins until the end of the previous year.

³ The number of coins processing machines to be checked annually in Luxembourg is higher than the number operating in its territory. Hence, Luxembourg availed itself of Article 6(4) to check this machine once in 2023.
