Dear Mr Rebergen,

Thank you for the submission of the Netherlands' Draft Budgetary Plan (DBP) for 2024, which we received on 13 October.

We are writing to ask for clarifications on the compliance of the Netherlands' DBP for 2024 with the Council Recommendation of 14 July 2023<sup>1</sup>. We acknowledge that the DBP has been submitted by a caretaker government.

The Council recommended the Netherlands to wind down the emergency energy support measures in force, using the related savings to reduce the government deficit, as soon as possible in 2023 and 2024. It also recommended the Netherlands to ensure prudent fiscal policy, in particular by limiting the nominal increase in nationally financed net primary expenditure in 2024 to not more than 3.5%. The recommendation also called on the Netherlands to preserve nationally financed public investment and ensure the effective absorption of RRF grants and of other Union funds, in particular to foster the green and digital transitions.

According to a preliminary analysis by my services, the DBP of the Netherlands results in a nominal increase in nationally financed net primary expenditure (henceforth, net expenditure) in 2024 of 6.1%, which exceeds the maximum recommended growth rate of 3.5% by a large margin. This means that net expenditure is planned to exceed the recommendation by 1.1% of GDP in 2024.

As our preliminary analysis points to a risk of net expenditure exceeding that recommended by the Council, we would like to invite you to provide further information on the drivers of net expenditure in 2024.

<sup>1</sup> Council Recommendation on the 2023 National Reform Programme of the Netherlands and delivering a Council opinion on the 2023 Stability Programme of the Netherlands, OJ C 312, 1.9.2023, p. 9-10.

We look forward to receiving your views by 3 November, which would allow the Commission to take them into account in its further analysis.

Yours sincerely,
