## **STATISTICAL ANNEX**

Long-term macroeconomic series

### **Notes on the statistical annex**

#### *General remarks*

This edition of European Economy gives in its statistical annex updated time series of annual data.

Unless otherwise stated, data for Member States are based on the ESA 2010 system.

For the majority of Member States, data start in 1995, the exceptions being France, where data start in 1960, Denmark in 1966, Finland in 1975, Germany in 1991, Sweden in 1993, UK in 1997 and Luxembourg in 2000. ESA 1995 and ESA 1979 data are used for the earlier years.

Data for Turkey, Montenegro, North Macedonia, Serbia and Albania are included in this publication.

For the USA and Japan the definitions are as in the SNA 2008.

Data sources are Eurostat, national publications, the OECD and the European Central Bank.

Figures for 2019 and 2020 are forecasts made by Commission staff using the definitions and latest figures available from national sources. These series are not fully comparable with the corresponding figures for earlier years; however, the discontinuities of the levels of these series have been eliminated. The forecasts are based on data available up to 24 April 2019.
