Foreword

GENERAL GOVERNMENT DATA shows the time-series for the general government transactions and balances that the Commission Services use for the monitoring of the Member States' budgetary situations. Government accounts (transactions and balances) and debt figures up to 2018 have been compiled and reported to the Commission by the national statistical offices and checked by Eurostat. Figures for 2019 - 2020 are forecasts by the Commission Services (Directorate General Economic and Financial Affairs) in spring 2019.

GENERAL GOVERNMENT DATA is organised in two parts. Part I shows, for each Member State, the figures of the government revenue and expenditure account. The methodological reference is the European System of National and Regional Accounts (ESA 2010)

In Part II, each table covers one specific transaction and shows the time-series for the individual Member States, for the euro area and the European Union as a whole.

GENERAL GOVERNMENT DATA is produced twice a year in connection with the publication of the Commission Services' Spring and Autumn economic forecasts.
