Proposal for a

COUNCIL IMPLEMENTING DECISION

on granting short term Union financial assistance to Greece

EXPLANATORY MEMORANDUM

In view of this severe economic and financial disturbance caused by exceptional circumstances beyond the control of the government, Greece officially requested financial assistance from the European Union on [XX July 2015] with a view to supporting a policy programme to restore confidence and enable the return of the economy to sustainable growth, and safeguarding financial stability in Greece, the euro area and the EU. The draft economic and financial adjustment programme (the "Programme") submitted by Greece to the Commission and the Council aims at adopting a set of reforms so as to improve the sustainability of public finances.

The programme covers the period until the end of July 2015. It aims to provide a bridge financing to allow Greece to face some urgent financial obligations until it starts receiving financial assistance under a new programme from the ESM. Against this background, the provision of Union assistance to Greece under the EFSM would safeguard financial stability in the Union and in the euro area. The union assistance would be disbursed in one instalment and be linked to economic policy conditions.
